Smart Fast Ablution Facilities

Having adequate ablution and changing facilities not only promotes a productive and untroubled workforce but it is also your legal responsibility in terms of the Occupational Health and Safety Act. These regulations vary per environment and we can help you ensure that you are Department of Labour compliant for both a permanent or temporary workforce.

Abacus can provide you with a modular solution to meet your requirements. The flexibility of modular allows you to scale up or down quickly and easily. Units can be rented to meet your short term or longer term needs.

It's the smart, fast choice.

Quality Ablution Facilities

Our units are hygienic, sturdy and attractive ensuring a pleasant user experience. We can also supply scalable bays of 3m x 6m, the modular approach is extremely versatile allowing for compact shower and toilet privacy cubicles through to larger change room and locker facilities.

Mains Connected or Self Sustaining

Our ablution units can be connected to the municipal water and sewerage lines, if available, or placed on top of a 4,000 litre conservancy tank.

A Full Hygiene Service

We offer a full cleaning and hygiene service as well as effluent removal. This service is provided by our sister company Sanitech, and can be included in the rental price.
